

LED CAMP LIGHTING MORE LIGHT, LESS POWER

FROM THE MAKERS OF THE WORLD'S TOUGHEST PORTABLE FRIDGES

Lower power draw and increased durability make LEDs the smart choice for 12-volt outdoor applications.

National Luna builds on those benefits with a range of LED lights that give you more light, longer...and with all the features and benefits you want.

- 3-year warranty
- multiple brightness settings
- easy-fix installation or mobile options
- diffused low-glare UV-safe light distribution
- real reliability and durability
- optimum output with minimal power consumption

Made in South Africa, National Luna use quality LEDs and smart high-performance regulators mounted on metal circuit boards. All models are protected against reverse-polarity and short-circuit conditions, and function over a wide operating voltage in 12v and 24v applications.

The result is consistent brightness with low power draw. And with National Luna's switchable settings *you* can choose how bright you want your lights to be – low, medium or high on Touch models and low or high on Switch models.

Standard models are simple to wire and can be easily fixed to flat surfaces. Portable models – complete with an 8-metre cord, power-outlet and battery connections – can be used almost anywhere and come with spring clips for fast non-permanent attachment to tent and awning poles.

Safe, durable and dependable, from nine to a massive 27 LEDs, 52 to 593 lumens, fixed or portable, there's a National Luna camp light for you.

\$64.90 LED-43060 18 LED Clear Light

18 LEDs give you ample light with the option of three brightness settings – low, medium and high.

Base construction: ABS Plastic
 Connection: Wire in
 Switch: Touch – Low/Medium/High
 Dimensions: 250 x 38 x 12mm
 Lumen output: Low 75, Medium 284, High 547
 Power draw (mA @ 12v): Low 52, Medium 197, High 389
 Additional functions:
 Auto Eco mode 11v, Auto Shutdown 10v, Strobe
 Voltage: 10v to 30v
 Weatherproof IP66 Rated

\$79.90 LED-44360 18 LED Clear + 12 LED Yellow

Two lights in one – switch between clear or 'insect friendly' yellow LEDs with three separate settings.

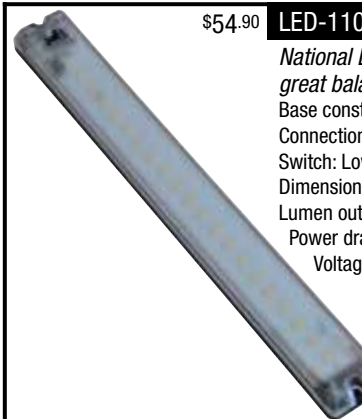

Base construction: ABS Plastic
 Connection: Wire in
 Switch: Touch – Low/Medium/High
 Dimensions: 250 x 38 x 12mm
 Lumen output: White – Low 75, Medium 284, High 547
 Yellow – Low 17, Medium 58, High 90
 Power draw (mA @ 12v):
 White – Low 52, Medium 197, High 389
 Yellow – Low 37, Medium 106, High 210
 Additional functions: Auto Eco mode 11v, Auto Shutdown 10v, Strobe
 Voltage: 10v to 30v
 Weatherproof IP66 Rated

\$29.90 LED-01030 9 LED Light Clear Lens

A compact light that suits tight installations where you want the versatility of switching brightness.

Base construction: ABS Plastic
 Connection: Wire in
 Switch: Low/High
 Dimensions: 200 x 30 x 16mm
 Lumen output: Dim 62, Bright 176
 Power draw (mA @ 12v): Dim 61, Bright 190
 Voltage: 10v to 15v

\$54.90 LED-11070 21 LED Light Clear Lens

National Luna's mid-range 21 LED light gives a great balance between output and power.

Base construction: ABS Plastic
 Connection: Wire in
 Switch: Low/High
 Dimensions: 300 x 35 x 16mm
 Lumen output: Dim 69, Bright 464
 Power draw (mA @ 12v): Dim 54, Bright 407
 Voltage: 10v to 30v

\$44.90 LED-02030 9 LED Light Clear Lens

A compact light that you can use almost anywhere. Clips to poles and runs off battery clamps.

Base construction: ABS Plastic
 Connection: 19mm Clips
 8m Cable & Battery Clamps
 Switch: Low/High
 Dimensions: 200 x 30 x 51mm (inc. clips)
 Lumen output: Dim 62, Bright 176
 Power draw (mA @ 12v): Dim 61, Bright 190
 Voltage: 10v to 15v

\$79.90 LED-31090 27 LED Ultra Light Clear Lens

27 LEDs give you National Luna's brightest light, with the option switch to 'dim' and save power.

Base construction: Aluminium
 Connection: Wire in
 Switch: Low/High
 Dimensions: 300 x 35 x 16mm
 Lumen output: Dim 104, Bright 593
 Power draw (mA @ 12v): Dim 83, Bright 530
 Voltage: 10v to 30v

\$89.90 LED-32090 27 LED Ultra Light Clear Lens

Bright light where you need it. Clips to poles and runs off battery or cigarette lighter/power outlet.

Base construction: Aluminium
 Connection: 19mm Clips
 8m Cable,
 Combi Cig Plug & Battery Clamps
 Switch: Low/High
 Dimensions: 300 x 35 x 51mm (inc. clips)
 Lumen output: Dim 104, Bright 593
 Power draw (mA @ 12v): Dim 83, Bright 530
 Voltage: 10v to 30v

\$94.90 LED-32390 27 LED Ultra Yellow Lens

Portable light with yellow lens gives gentle illumination and reduces insects' attraction.

Base construction: Aluminium
 Connection: 19mm Clips
 8m Cable
 Combi Cig Plug & Battery Clamps
 Switch: Low/High
 Dimensions: 300 x 35 x 51mm (inc clips)
 Lumen output: Dim 104, Bright 593
 Power draw (mA @ 12v):
 Dim 83, Bright 530
 Voltage: 10v to 30v

from \$6.50 Accessory Lenses

Optional red, yellow and clear lenses. Red lens is an ideal aid to night vision, yellow lens reduces insects' attraction to light. Switch to suit your needs, or as a replacement if you need one.

LED-200C/R/Y: suits 200mm LED (lens only)
 Clear \$6.50
 Red \$10.50
 Yellow \$10.50
 LED-300C/R/Y: suits 300mm LED (lens only)
 Clear \$8.50
 Red \$12.50
 Yellow \$12.50
